FISKARS®

OVER 360 YEARS OF FUNCTIONAL DESIGN

Fiskars® is a leading brand that provides functional, user-friendly and lasting design solutions for hand tools and beyond. Fiskars® products respond to genuine inspiration and drive to get the job done well in the most effortless and intuitive way.

A QUALITY STORY FROM 1649

Established in 1649, Fiskars is the oldest company in Finland. The business has worked with tools, cutting and steel-forging ever since it first started operating over 360 years ago.

In 1967 Fiskars launched its iconic orange-handled scissors, pioneering a revolutionary manufacturing process, ergonomic handles and innovative blades that offered precision, comfort and durability far superior to its peers.

Since then, more than 1 billion pieces of these orange scissors have been sold worldwide and their iconic status has resulted in the Fiskars orange being synonymous with quality scissors across the world.

Fiskars is the world's No.1 scissor brand.

CLASSIC SCISSORS

Orange Fiskars scissors are design classics that have been popular for more than four decades. The range consists of a wide selection of scissors featuring blades made of high-quality nickel-free steel and ergonomically shaped handles. The handles provide a large surface area for the fingers to press on, resulting in the force you exert being applied evenly, ensuring good comfort and helping prevent fatigue. To make sure the joints are both durable and hygienic, the handles are injection-moulded directly into the blades.

- | Blades made from high-quality Swedish Sandvik steel | Hardness: HRC 57 | Handles made of impact-resistant PBT, PP or ABS plastics | Blade tension can easily be adjusted with the screw, enabling simple cleaning | Dishwasher safe |
- | Designed by Olof Bäckström and Olavi Lindén |

Clip-Sharp Sharpener 859600

75 g, retail box: 6

Sharpening scissors regularly with Fiskars Clip-Sharp keeps them sharp and makes them last longer.

INSPIRATION

With the launch of Inspiration scissors, Fiskars brings totally new and fresh products to the world of scissors: high quality cutting combined with delightful looking ergonomic handles. The high quality colourful patterns in the handles are produced with a fully new innovative method which brings the colour into the handle material, not only the surface. Therefore the colour tones are deep and very durable in use. The different patterns created by Finnish designers bring inspiration and joy to our new products. Now you have the chance to choose scissors that suit your home and your own taste. Get inspired by Inspiration!

| Made of high-quality Swedish steel | Blade tension can easily be adjusted with the screw, enabling simple cleaning |
| Dishwasher safe | Bubble & Gloria design: Christian Aminoff, Provoke |

GLORIA

A beautiful wild garden, which constantly transforms while growing, has been the inspiration for this pattern. The style of drawing the designer has used here is called doodling. Doodling is what we do when we almost unconsciously draw pictures and patterns on the back of an envelope, in the corner of a magazine or on a bit of paper. The drawing starts from a small detail and suddenly you have created something beautiful. Let the Gloria scissors inspire you.

General purpose scissors, Gloria 995101

21 cm, 83 g, retail box: 5

Manicure scissors with very thin blades for careful cutting.

ServoCut™

ServoCut™ is the latest innovation from Fiskars and sets a new standard in household cutting. With the new patented ServoCut™ mechanism, you can cope with the most challenging materials, as it doubles the cutting performance of the scissors. ServoCut™ scissors are tough and durable at the same time, and our range includes two products designed for specific tasks in and around the home.

In 1967 Fiskars Classic scissors revolutionised household cutting. ServoCut™ brings the next revolution in household cutting.

1 Ergonomically shaped handles made of FiberComp™ give you a comfortable grip

2 Work through the roughest and thickest materials; the patented ServoCut™ mechanism doubles the cutting performance

3 Perfect combination of performance and durability due to the moderate blade angle and 3D blade grinding

4 Comfortable and safe grip due to the Softgrip™ material on the inside loop of the handle grip

5 Easy to clean; adjustable blade tension

6 Scissors stay sharp longer due to the high-quality stainless steel

reddot design award
product design 2013
